

# Vacancy: Internship in Nepal

'Foundation Care For All' (FCFA) aims to improve the quality of life for underprivileged people in Nepal. In order to reach this objective, we work closely together with our Nepali sister-organisation 'Care For All – Nepal' (CFA). The main focus of both organisations is on the educational sector of Nepal; aiming to provide more opportunities for people from low socio-economic backgrounds – children, students, women and teachers. By investing in knowledge we are generating a positive impulse. Our main projects include: 1) school-construction projects, 2) women's literacy programs, 3) scholarship programs, 4) awareness (environmental and hygiene) programs, and 5) teacher's training programs. To read more on these projects, please visit [www.fcfa.nl](http://www.fcfa.nl) for further details.

Our core focus is an intensive cooperation with local peoples; with the use of local materials, knowledge and experiences we try to implement our projects in harmony with Nepal's cultural and natural environments.
